

	AIM-toc	AIM-oscar	ICQ	irc	Jabber	MSN	Yahoo	Notes
<b>Group Chat</b>								
Send	X	X		X			X	
Send Font	M	M					X	AIM (Both): On send messages when a font size/face changes the previous color setting is lost as decoded on the official clients (display in our window is OK). This works OK on received messages.
Receive	X	X		X			X	
Receive Font	M	M					M	AIM(Both), Yahoo: Italic font is not displayed in the chat window (but is sent correctly)
User Join Message	M	M		M			M	All: Uses account username not the Display Name
User Leave Message	M	M		M			M	All: Uses account username not the Display Name
Topic Message				X				
Promote Message				X				
Demote Message				X				
Accent Send	X	X		X			X	
Accent Received	X	X		X			X	
Non ISO Send				X			X	
Non ISO Receive				X			?	AIM-oscar: Can't get Win98 client to send non-ISO Yahoo: Yahoo XP client cannot send non-ISO
Action Send				X				
Action Received				P				Sender's Name is not displayed in /me action
<b>Single Chat</b>								
Send	X	X	X	X	X	X	X	
Send Font	M	M					X	AIM (Both): On send messages when a font size/face changes the previous color setting is lost as decoded on the official clients (display in our window is OK). This works OK on received messages.
Receive	X	X	X	X	X	X	X	
Receive Font	M	M					M	AIM(Both), Yahoo: Italic font is not displayed in the chat window (but is sent correctly)
Away Send	X	X	M	M	M	M	M	irc, ICQ, Jabber, MSN, Yahoo: Transmitted message should have an "Auto-Away Message" prefix added to the front of it. Since the transport doesn't have an "away message" flag
Away Receive	X	X						
Offline Send			X		X		X	AIM-oscar: Message didn't send, got an error message of: AIM - message to AlanHumpherys bounced (reason 0x0004: Not logged on) - Official client does same thing... Does this mean that AIM doesn't support offline messages?
Offline Receive			X		B		X	AIM-oscar: Never got the offline messages, but the official client gave a warning when I sent the original stating that the message wasn't delivered. Jabber: Never got the offline messages, may be the remote client's fault
Logon Message	M	M	M		M	M	M	AIM-toc, AIM-oscar, ICQ, Jabber, MSN, Yahoo: Uses account username not the Display Name
Logoff Message	M	M	M		M	M	M	AIM-toc, AIM-oscar, ICQ, Jabber, MSN, Yahoo: Uses account username not the Display Name
Accent Send	X	X	X		X	X	X	
Accent Received	X	X	X		X	X	X	

	AIM-loc	AIM-oscar	ICQ	irc	Jabber	MSN	Yahoo	Notes
Non ISO Send		?	?		X	X	X	AIM-oscar: Sending of chars shows up as null bytes. Apparently not encoding correctly ICQ: Cant figure how to set encoding on remote client
Non ISO Receive		?	?		X	X	?	AIM-oscar: Cant figure how to send non-ISO from windows ICQ: Cant figure how to set encoding on remote client Yahoo: Yahoo XP client cannot send non-ISO

Key Receive	?	?	?	?	?	?	?	

## Shared Functions

Translation Send	B	B	B	B	B	B	B	All: Not working correctly 1) Original Message is shown after the translated one 2) No message is transmitted 3) Displayed Translated Message is the same as Original Message
Translation Receive	M	M	M	M	M	M	M	All: Original Message is shown after the translated one
Strip Whitespace	X	X	X	X	X	X	M	Yahoo: Display of sent messages working perfectly Received messages still have extra whitespace displayed
URL Parsing	X	X	X	X	X	X	X	
Smiley Parsing	X	X	P	X	M	X	X	ICQ: The smiley list used by the current client doesn't match our smiley dictionary, so many don't parse correctly Jabber: Other clients seem to have different smileys listed than ours, although there is no official standard.
Speak Message	X	X	X	X	X	X	X	
History Logging	P	P	P	P	P	P	P	All: Current Problems are: - Logged under the system userid not the display name - no smileys are saved - received messages have extra whitespace
Profanity Send	M	M	M	M	M	M	M	All: Profanity Controller is broken - Cannot Edit the List of Words to add a word - but words are censored
Profanity Receive	M	M	M	M	M	M	M	All: Profanity Controller is broken - Cannot Edit the List of Words to add a word - but words are censored
